

# CELL NOTES

## **Vision Sunday: Part 2**

### Vehicles and Values

Sunday 29<sup>th</sup> October 2006

Tom Shaw

'How we get there' and 'what the journey feels like' are just as significant parts of the vision as where we are going. As a result, the church's Vehicles and Values were outlined and key aspects highlighted.

Please use the following questions to aid application of what was spoken about on Sunday in groups of 3 or 4:

1. What aspects of cell life do you most enjoy and find enjoyable? What aspects of cell life do you find most challenging?
2. In what ways is your cell the arena for the Great Commandment being fulfilled (namely, to love God and to love each other)?
3. A key value is that we are called to be a people who 'change' as a result of Jesus being Lord. what specific ways do you feel that you are changing for the better? What specific areas would you like Jesus to change in you in the coming year?
4. Another key value is welcoming of the Person of the Spirit and His gifts being poured out. Which gift(s) of the Spirit do you feel God has given you? Which new gifts do you most desire to see arise in your life this year? How are you 'practising' the gifts you have already in the cell setting?
